Luxurious Grandeur

Hand crafted with the sole intention to beautify homes & offices - Marble and Granite - crystalline metamorphic forms of limestone has for decades, helped us re-invent our space - be it residential, commercial or even industrial in nature by adding their graceful elite personality - not only through various eye savoring patterns but also through the sheer ability of cutting or sculpting various desirable modifications that would furthermore help the space light up with valiant glow and enigmatic sophistication.space.

Established in 2005, we at Union Marble strive to provide our clientele, one of the best prospects of re-incarnating their homes or office spaces with a little touch of marble and granite work. In fact, to ensure our customers settle for nothing less than 100% satisfaction - we have persistently engaged in overseas marble and granite importing which allows us to harness the best materials from around the world keeping the cutthroat competitive costs in mind.

As a part of our mission to make UAE the epitome of elite elegance, we have strived to maintain a constant effort in the development of UAE through fascinating marble - granite work, veteran assembling of staff and state-of-the-art machinery equipment- all these fueling the dreams of Union Marble Company.

You would have never guessed how elegantly ravishing your home space would look until you allow us to give you a specimen of our artwork where we visualize a world rampantly decorated in lustrous marbles and granite work-explicitly displayed with intricate sculpted patterns, designs, hues and origins - housed right within the confinement of your inhabitation.

Sourcing quality grade materials from across the world, we work with a large collection of internationally classified marble and granites that allow us to present to you a bracket of refined artisanship gracing your home.

We import raw materials from countries like Turkey, Spain, China, India, Italy & Greece

- Al Safeer Consultant
- Mr. Abdulrahman Al Hadid

We have successfully appeased over 1000 clientele base working for Commercial Towers, Government Offices, Hospitals, Premium Residential Apartments, Private Villas, Rulers Villas, Hotels and Resorts.

A lavishly decked up room with an even lavisher staircase will be nothing but prolific outcome.

Leading to your well furnished villa or your grandly decorated office is a shabby little stairway that needs an immediate makeover. While we often overlook the entryway, the staircases both indoor and outdoor actually have an integral part to play in adding ambience and aura to your room. The best part is, we can often innovate and re-incarnate the stairway with completely new patterns, designs and styles that simply jazz up the entry way. Now you won't hear anyone complaining about waiting for the elevator.

Indoor & Outdoor Staircases

Spice up your kitchen work-top and add more volume to your bathroom in just a few simple steps.

Apart from the polished ornate cabinets with little silver wears spread to display the kitchen without a regal counter-top is simply just a kitchen where you have to spend hours on end, just plating up food in your oh-so ordinary table-top. The same goes for the bathroom where a shiny new bubble collection over-flow resisting bath tub simply overlooks a dull work top with a sad bar of soap staring at you. Why compromise on personal time with these casualties when you can get proficient kitchen and bathroom worktop customizations with our wide collection of marble-granite collection.

Bathroom & Kitchen Worktops

Who even cares what the floor looks like right? Well we do. A landscape is not complete unless the foot space glimmers and that is why we have come up with exquisite designs, patterns, colors and textures for your marble or granite floor structure.

Flooring

Polished and glistened, a marble/granite flooring with the right choice can actually change the whole outlook of the room.

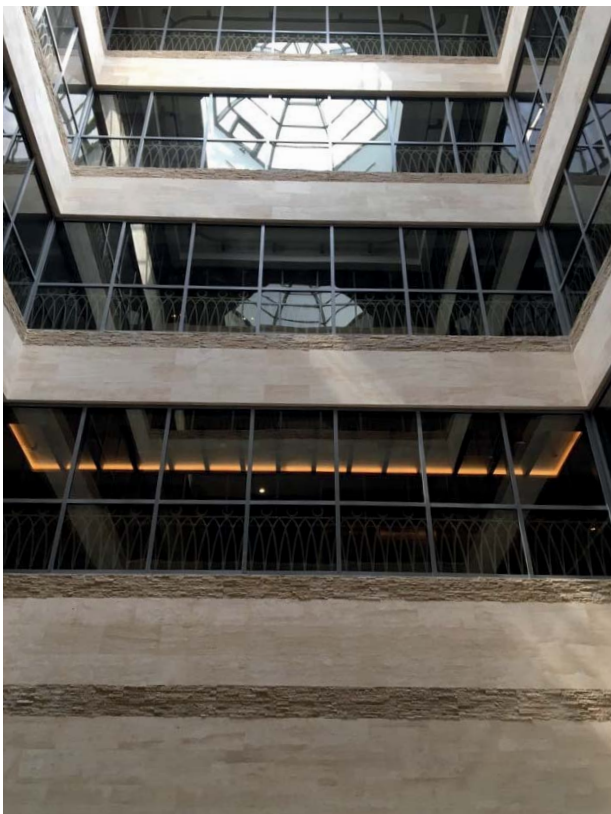

Don't want to go full out completely changing the walls? Just opt for a cladding which is basically putting permanent makeup on your walls. A cover-up of sorts, cladding is not only economical but also an efficient choice for a quick change where we use our best granite structure to absolutely change the look of the room without us having to break down foundations.

Cladding

The whole personality of the room depends on that one important decision- Whether to go all out with the patterns or keep it wrapped in simplicity. Preferences vary and so does our collection of marble and granite wall slabs. You can keep the walls glossy and frolic or simply go for a mature matte. The choice is yours- the material and expertise is ours- you make the equation.

You can build a fort out of medieval castle stone marbles or simply keep it unique and chic in grand granite.

Walls

According to the ancient art of Feng-shui, water in or in front of the house actually brings in prosperity, growth and good luck in abundance.

Nothing beats a good entrance or a backyard better than a water work upfront.

In fact, according to the ancient art of Feng-shui, water in or in front of the house actually brings in prosperity, growth and good luck in abundance. It is so said that wind brings in the 'chi' which is everything good personified in the form of energy which is further known to accumulate near the water which is then channeled through.

It's not just about the patterns or the design, but the superiority of the quality provided by us that should be the most impressive of all.
